

Dara Mustafa Saleem

Duhok, Iraq | +964 750 192 0671 | Daramistefa30@gmail.com

Full-stack developer experienced in building scalable, user-focused web applications. Skilled in modern frontend and backend technologies, API integration, and clean, maintainable code. Strong contributor to agile teams, delivering reliable, production-ready solutions.

Experiences:

Software Developer

Saziware Company | July 2024 – Present

- Built and maintained scalable web applications, optimizing reliability and performance.
- Translated UI/UX designs into functional interfaces with 95% alignment to project specs.
- Collaborated in agile sprints, contributing to successful deployment cycles.

Full-Stack Web Developer

Lelav Company | February 2024 – June 2024

- Improved usability through feature enhancements and seamless API integration.
- Delivered all sprint goals, contributing to successful product releases.

Junior Software Developer

Zeronex Agency | December 2021 – January 2024

- Maintained and updated legacy systems to ensure stability.
- Supported upgrades to improve performance and scalability.

Lead Programming Intern

Robotics and AI Club | April 2021 – November 2021

- Developed custom control software for robotics, improving task execution by 25%.
- Debugged machine learning algorithms in real-time collaborative settings.

Education

B.Sc. in Electrical and Computer Engineering

University of Duhok | September 2020 – 2024

Projects:

AI Image Generator App – DALL·E clone

Full-stack AI-powered web app that generates images from text prompts.

- Built with MERN stack, integrated OpenAI API for real-time generation.
- Developed secure image upload & retrieval with Cloudinary.

Tech: React, Node.js, Express.js, MongoDB, OpenAI API, Tailwind CSS, Cloudinary

Brainwave – SaaS Landing Page UI – [GitHub](#)

A modern and minimalistic UI for a fictional SaaS product homepage.

- Created a fully responsive, animated landing page with a clean layout.
- Optimized for visual appeal, performance, and maintainability.

Tech: React, Tailwind CSS, Framer Motion

Face Recognition Attendance System – AI-Powered Attendance Tracking – [GitHub](#)

A facial recognition system to automate attendance using computer vision.

- Built AI model with OpenCV and Scikit-learn for real-time face detection.
- Designed a Flask-based dashboard for tracking and reviewing attendance.

Tech: Python, Flask, OpenCV, Scikit-learn, Haar Cascade, Git

Movie Search Engine – Search & Discover Movies– [GitHub](#)

A sleek React-based app to search and explore movies via a live API.

- Implemented fast search with movie previews and real-time suggestions.
- Designed for performance and responsiveness using modern frontend practices.

Tech: React, Tailwind CSS, TMDB API, Axios

Technical Skills:

- **Languages:** JavaScript, TypeScript, Python, PHP, SQL, C++
- **Frontend:** React, Tailwind CSS, HTML5/CSS3, Figma, Framer Motion
- **Backend:** Node.js, Express.js, Flask, MongoDB, PostgreSQL
- **AI/ML:** OpenCV, Scikit-learn, Haar Cascade
- **Tools:** Git, Docker, Postman, VS Code
- **Platforms:** WordPress, Firebase, Supabase
- **Design:** Adobe XD, Photoshop, Illustrator

Languages:

- Kurdish (Native)
- English (Fluent)
- Arabic (Fluent)
